Biaggio Signorelli Foundation

DEAR FOUNDATION SUPPORTER

Biaggio Signorelli's dying wish was to help save others. The Biaggio Signorelli Foundation was established to fulfill this, and in honour of his name we are committed to finding early detection, treatment, care and ultimately a cure for Mesothelioma (Asbestos Cancer).

We sincerely thank you for your support and contributions in allowing us to continue our commitment to making a difference, as we aim to "breathe hope into the lives of sufferers and their families."

To date we have raised funds with the support of the Federal Government, NSW State Government, Local Councils, Community Associations, Corporate businesses and the general public. We are humbled by the Foundation's achievements to date and thank our Board Members for their commitment and belief.

This could not be possible without your valued contributions. Financial support is paramount for researchers to develop their expertise in asbestos related diseases.

We acknowledge and very much respect your support.

Sincerely

Filippa Signorelli
Paul Signorelli OAM, Nina Milazzo, Anna Cesarano
Founders of Biaggio Signorelli Foundation

Biaggio Signorelli Foundation

EST. 2008

Biaggio Signorelli, founder of the Doltone House Group, was an extraordinary man. His world changed when he was diagnosed with Mesothelioma in October 2007 and died on 30 May 2008.

It took some time to detect the type of Cancer, which was followed by chemotherapy. The aim was to increase his life expectancy, however this was never going to cure him. While being treated, Biaggio became acquainted with Keith Cox (now Board Member), nurse practitioner in the oncology chemotherapy unit at Sydney's Royal Prince Alfred Hospital, along with Associate Professor Michael Boyer, Director of the Sydney Cancer Centre. These people had a huge impact on Biaggio's physical and mental wellbeing.

Then came his final journey to the palliative care unit at Calvary Hospital – the final two weeks of his life. His son Paul, did not leave his side and nursed Biaggio in his final hours. A very strong bond between father and son indeed.

Message from the Prime Minister of Australia

I'm delighted to send my warm greetings to the Signorelli family, and all associated with the Biaggio Signorelli Foundation, on the occasion of this 15-year tribute gala.

Beloved by his family and devoted to his community, Biaggio Signorelli was a wonderful Australian. He carried his convictions through life and, in death, they remain a legacy for the generations.

The Biaggio Signorelli Foundation is the Signorelli family's tribute to their father, and their gift to Australia. The funds it provides for awareness, detection, treatment and cure of asbestos-related diseases are a fulfilment of Biaggio Signorelli's plea to his children to 'help save others'.

The lives cut short by asbestos-related diseases are a tragedy borne by families and communities across Australia. The Biaggio Signorelli Foundation is a steadfast champion of the mission to alleviate suffering through new and innovative scientific research and development.

Recognising the value of every life, and the importance of every contribution, the Biaggio Signorelli Foundation inspires us to believe that, together, we can make a difference. It's a message of hope and humanity for all Australians to celebrate.

Enjoy the evening.

The Hon Anthony Albanese MP
Prime Minister of Australia

Message from the Premier of NSW

I am delighted to add my support for the Biaggio Signorelli Foundation's Gala Dinner in November. The Foundation is part of the extraordinary legacy of Biaggio Signorelli and his family.

Like so many migrants to NSW in the post-war era, Biaggio helped our State become the dynamic, vibrant and prosperous community it is today.

His passing to Mesothelioma in 2007 was widely felt across our community. His dying wish - to help save others - continues on through the Foundation's work.

At the 15 Year Tribute Gala Dinner, funds raised will help medical researchers to detect, treat and hopefully find a cure for Mesothelioma. It's a worthy cause so please, give generously.

The event also promises to be a fantastic night out, with great food, wine and entertainment - no less than Jimmy Barnes is headlining.

Finally, I want to thank and congratulate Biaggio Signorelli's children - Paul, Anna and Nina - for establishing the Foundation and upon reaching this latest milestone.

Have a wonderful evening.

Sincerely,

Hon Chris Minns MP
Premier of NSW

Message from the Leader of the Opposition

Tonight, we honour the vision of an extraordinary man, Biaggio Signorelli.

In his final hours following that devastating mesothelioma diagnosis eight months earlier, Mr Signorelli's thoughts were not for himself, but for those suffering like him. We are still moved today by Mr Signorelli's last words to his son Paul to 'help save others'.

On behalf of the Coalition, I pay tribute to Mr Signorelli's children – Paul, Anna and Nina – who established the Biaggio Signorelli Foundation and who have made their father's vision a reality. The foundation epitomises the very best of the Australian character. Thanks to the foundation and its fundraising efforts, Australians battling mesothelioma now have access to better treatments and care. But most importantly, the foundation has raised awareness of mesothelioma to aid in its prevention and it continues in its endeavours to find a cure for this horrific asbestos induced cancer and other dust diseases.

I want to thank all attendees at this 15-year tribute gala dinner as well as all Australians who have generously donated to the Biaggio Signorelli Foundation so it may continue its outstanding and necessary work.

Tonight, while we commemorate Mr Signorelli's vision, celebrate the achievements of his children and mark the success of his eponymous foundation, we also remember an extraordinary Australian who was defined not just by his dying wish but by the way he lived.

Biaggio Signorelli's life was one of many which exemplifies Australia's migration success story: the young man who migrated here from Sicily with a single suitcase, who worked as a greengrocer in Willoughby and took a second job in a factory, who purchased a fruit shop in Lakemba, who expanded the family business into a food emporium in Blakehurst, who transformed Doltone House into the iconic hospitality venue it is today, and who supported hundreds of charities through his philanthropy.

Mr Signorelli knew the value of hard work. He had an indomitable entrepreneurial spirit. He was a loyal friend and community-minded man who understood the inherent worth of reciprocity. He adored his family, no more so than his beloved Fina, three children and grandchildren. Biaggio Signorelli reminds us of the values and virtues we should hold dear in life. Tonight, we honour his remarkable life and legacy.

Hon Peter Dutton MP
Leader of the Opposition

Message from the NSW Liberal Leader

It's an honour to be attending the 15 year tribute event for the Biaggio Signorelli Foundation and expressing my support for the advocacy of the Foundation in the awareness, detection, treatment and cure of Mesothelioma. The final wish of Biaggio Signorelli, to help save others, has been embodied in the vision and work of the Foundation for the past 15 years, and tonight we recognise the achievements made to date and to support the Foundation carrying this mission into the future.

Hon Mark Speakman SC MP
NSW Leader of the Opposition

The Hon. Mark Butler MP, Federal Minister for Health and Aged Care officially opens asbestos-research laboratory in the name of Biaggio Signorelli.

In a momentous tribute to the late Biaggio Signorelli, whose life was tragically cut short by Mesothelioma. The Hon, Mark Butler MP, Minister for Health and Aged Care proudly announced the naming of an Asbestos and Dust Diseases Research Institute laboratory in Biaggio Signorelli's honour.

This initiative marks the 15th anniversary of Biaggio Signorelli's passing and celebrates the incredible work carried out by the Foundation to raise awareness, support prevention, treatment, and ultimately find a cure for asbestos-related diseases.

The laboratory opening was also attended by Sally Sitou MP, Federal Member for Reid and The Hon. Mark Buttigieg MLC.

Asbestos Facts

Up until the mid-1980s, Australia had one of the highest rates of asbestos use per person in the world.

The average life expectancy from diagnosis of Mesothelioma to death is just nine months.

Australia has the highest incidence of malignant Mesothelioma per capita in the world.

Approximately one third of all homes in Australia contain asbestos products. If your house was built before 1990, it is likely that it will contain asbestos in some form.

In Australian households, asbestos can be found in roofing, flooring, guttering, electricals, wall sheeting, fencing, putty and glues.

Asbestos becomes a danger to your health when it is damaged, weathered or disturbed, such as through renovating. Inhaling asbestos fibres can result in the development of Mesothelioma.

There is currently no cure for Mesothelioma. This is why we need your help to end asbestos cancer.

Entertainment

Richard Wilkins AM

Richard Wilkins creates a feel-good space for listeners to relax on Saturday and Sunday mornings from 10 am to 1 pm on Smooth FM. Richard joined smoothfm in 2012 and is the recipient of two Australian Commercial Radio Awards: one for Best Music Special in 2013 for his John Farnham special, and another in 2015 for co-hosting with Michael Bubl .

Richard has served as Channel Nine’s Entertainment Editor for 32 years and has been a regular on the Today show and Today Extra. He has also contributed stories to A Current Affair, reported for National Nine News, Ninemsn, and various other outlets as the Nine Network’s Entertainment Editor. In 2020, he became the co-host of Weekend Today alongside Rebecca Maddern.

Jimmy Barnes AO

Jimmy Barnes, affectionately known by all as **Barnesy**, is the heart and soul of Australian rock and roll released his 20th studio album **Flesh And Blood** in July 2021 and it went straight to #1. He has 18 #1 albums under his belt, more than The Beatles, has sold more records in Australia than any other local rock & roll artist and for over 40 years he has delivered some of our most intense and iconic live performances. He is truly in a league of his own.

His third book, *Killing Time: short stories from the long way home*, was released in 2020 and debuted at #1 on the non-fiction book charts, as did its predecessors, *Working Class Boy* and *Working Class Man*. Never one to slow down, Jimmy also had two new books released in 2021 – a children’s book, *Rosie the Rhinoceros*, in October and a cookbook with Jane in November titled *Where the River Bends*.

Guy Sebastian

Guy Sebastian is an Australian singer, songwriter, and musician. He rose to fame as the winner of the first season of “Australian Idol” in 2003, launching his successful music career. Known for his soulful voice and versatile musical style, Sebastian has become a prominent figure in the Australian music industry.

Over the years, he has released numerous hit singles and albums, showcasing his talent across various genres such as pop, R&B, and soul. Some of his well-known songs include “Angels Brought Me Here,” “Battle Scars,” and “Like It Like That.”

Aside from his music career, Guy Sebastian has been involved in various philanthropic endeavours and has served as a judge on popular Australian television shows, further solidifying his status as a respected artist and personality.

Mark Vincent

From the moment he first appeared on our television screens as a fresh-faced 15 year-old, Australia has loved Mark Vincent like one of the family. We have watched him grow up in front of our eyes, and shared in his successes and milestones, including nine consecutive albums reaching #1 on the ARIA Classical Crossover charts.

Now, with the release of his tenth studio album, *In The Eyes Of A Child*, Mark welcomes us into his family, with a collection of songs that reveal Mark’s own hopes, dreams and aspirations for his future.

Since Mark’s last album his life has changed hugely – first when he got married, and again when his first child was born. It was the birth of his son Matteo in 2020 that most profoundly influenced the album, giving Mark a burst of determination to tackle the next phase of his career with all his heart, the way he has always approached his singing.

In The Eyes Of A Child marks an exciting new milestone in Mark’s journey, and he looks forward to taking you all along for the ride with him.

Mitch Tambo

Mitch Tambo, celebrated as one of Australia's most unique and dynamic First Nations entertainers, has earned recognition as "the new voice of our generation." His debut album, "Guurrama-Li," rapidly climbed the music charts, attaining top positions in Australia, the UK, US, Europe, Asia, and New Zealand. Mitch's captivating performances are marked by powerful renditions of iconic songs, including 'You're the Voice' at the historic Fire Fight Concert, performing alongside legends like John Farnham, Olivia Newton-John, and Brian May.

His commitment to preserving Gamilaraay language and culture is evident in tracks like 'LOVE' and his transformation of Vanessa Amorosi's 'Absolutely Everybody.' Mitch's repertoire includes anthems like "Heal," a poignant version of 'Silent Night,' and 'Great Southern Land' with Reigan. His electrifying pop single 'Yugal Yulugi' marked his tenth consecutive #1 iTunes Worldwide Chart success. He has also been nominated for two Golden Guitar Awards for his work on 'Come Together' alongside Lee Kernaghan and Isaiah Firebrace for Vocal Collaboration of the Year and Heritage Song of the Year.

Vince Sorrenti

Vince Sorrenti is one of Australia's most successful and popular comics. For the past two decades, he has been the entertainer of choice at the nation's leading corporate, benefit, sporting, political, conference, and social events. His excellence and experience on stage see him hosting and speaking at over 200 events per year. He is overwhelmingly Australia's most popular big event speaker, entertainer, and Master of Ceremonies. Vince loves and owns the stage. He has an infectious style, and his material is fresh, insightful, irreverent, and very funny.

Vince's decades-long list of radio and television credits is far too extensive to list. Suffice it to say he has done it all, from Hey Hey It's Saturday in the 1980s to Celebrity Apprentice and Studio 10 today. He hosted his own show on MTV in the USA and has appeared in every genre of TV program from Sport to Cooking! In September 2018, he premiered as the Italy and France travel reporter on Channel 9's new Hello World Travel Show.

Look out for Vince Sorrenti!

Australian research. Global outcomes.

The Asbestos and Dust Diseases Research Institute (ADDRI) is the international leader in research dedicated to reducing and ultimately eliminating the impact of asbestos and dust-related diseases worldwide.

We work in collaboration with individuals and organisations committed to eradicating these diseases, while crucially providing personalised wrap-around support to those affected by them.

Our evidence-led research drives advancements in medical and scientific understanding and guides our global education and training initiatives. This work led to our Designation as the Collaborating Centre for Elimination of Asbestos Related Diseases by the WHO in 2021 – a world first.

We are immensely proud to work alongside the Biaggio Signorelli Foundation. Our partnership was cemented in July 2023 with the naming of the Biaggio Signorelli Laboratory at our Institute. We salute the extraordinary work of the Foundation and the relentless passion of the Biaggio Signorelli Family.

www.addri.org.au

The UK has the highest incidence of Mesothelioma in the world. Mesothelioma UK is a charity supporting people with mesothelioma to live better and live longer and to prevent mesothelioma happening to future generations.

Working closely with the NHS, we advocate for better treatment and care, quality of life, as well as support research and amplify the patient's voice. We do this by:

- Clinical nurse specialists who provide information and support for people affected by mesothelioma, as well as sharing their knowledge with their wider professional network.
- Working closely with partner organisations to raise awareness of asbestos and shine a light on the devastating impact of mesothelioma.
- Our patient support line, benefits advice service and information resources to guide, signpost and inform.
- Research funding for individual studies, as well as those conducted through our research centre at the University of Sheffield, to improve patient outcomes and experience.
- Providing education and training for professionals and people affected by mesothelioma, such as our upcoming Carers Course.

Shaping the future of safety

Global migration is booming. In just one year, Australia saw a 171% surge in migrant arrivals. As we look across the globe, from the UAE to Asia, regions are rapidly becoming melting pots of diverse languages and cultures. This creates a vibrant mosaic of global talent. However, the language barrier emerges as a real concern: In high-risk work environments, even a minor miscommunication could have devastating consequences.

So, the pressing question: How do we ensure safety in a workplace constantly reshaped by language diversity?

“ At TALK5, we envision a world where communication is seamless and barriers are broken through technology.

www.talk5.app

The TALK5 story

Founded in 2020 by George Bancs, TALK5 was inspired by a childhood incident in which George and his best friend witnessed a workplace fatality due to a fall from heights.

As a construction business owner in Australia, George grapples with the challenges of ensuring safety amidst diverse linguistic backgrounds. Recognising that clear communication is crucial to safety, he developed TALK5 to bridge this gap.

Since then, the TALK5 team has been developing with its core mission to save lives through effective communication and connections. The platform has integrated the most innovative technologies such as AI, machine learning and multilingual natural voice generators to deliver the most intuitive and progressive system for companies and their workers around the world.

The TALK5 difference

TALK5 enables complete and consistent WHS workflows, leveraging the most innovative technologies and advanced language models. This ensures workers understand their risks and are kept safe, no matter where they are.

Built for essential needs, TALK5's intuitive and mobile-friendly platform significantly enhances worker safety and operational excellence.

Key features include:

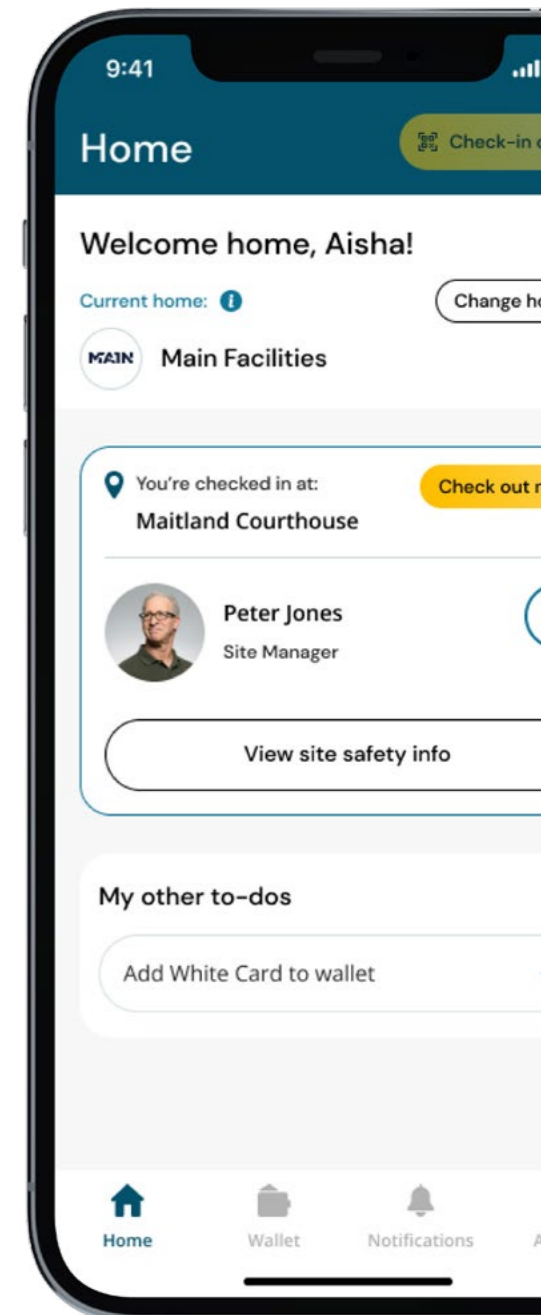

- Mobile and call enabled welfare checks
- Voice initiated workflows
- Training and inductions delivered differently, powered by AI
- Site management, incl. multi-language check-in and out

“In Australia, we thrive on diversity and inclusion. Clear communication and a comprehensive understanding of risks at work across cultures and languages is crucial to avoid the effects of a disease such as Mesothelioma.

As TALK5 stands with the Biaggio Signorelli Foundation on its 15th year, we pledge to champion safety and inclusion for every worker, across every culture.”

George Bancs
CVO & Founder

MICROHIRE

A Legacy of Innovation and Support

Microhire: A Legacy of Support

Our nearly 15 year partnership with the Biaggio Signorelli Foundation is a cornerstone of Microhire's community involvement. We've been more than just a sponsor; we've been a pillar of support, contributing over \$300,000 in Microhire equipment and countless hours of technical expertise.

Two Families, One Mission

Microhire and the Biaggio Signorelli Foundation share more than just a business relationship; we share a mission. Both being Australian-owned family businesses, we understand the importance of community and legacy.

Your Audio Visual Event Staging Specialist

In Sydney's competitive CBD metropolis, you need an edge to stand out. Microhire provides that edge with state-of-the-art Audio Visual solutions that captivate, engage and delivery your message. Our technology is second to none, and our team is the best in the business.

The Future Starts Now

Don't miss the chance to elevate your events to the next level. Contact us today to discuss partnership opportunities. Together, we can create unforgettable experiences while making a real difference in the community.

Malosi Scaffolding is a leading Australian scaffolding company, specializing in providing effective and innovative scaffolding solutions.

Our team of highly skilled scaffolders has extensive experience in the construction industry and on scaffolding projects of all scales.

Malosi Scaffolding consistently delivers a reliable and high-quality scaffolding service to our clients.

We provide scaffolding solutions for a range of industry sectors, including:

- Commercial
- Industrial
- Residential
- Events

Safety is paramount as we ensure that every scaffolding erected meets the Australian Safety Standards (AS/NZS 1576 & AS/NZS 4576 Guidelines for Scaffolding).

This facilitates an injury-free workplace for all of our projects, employees, on-site workers/ visitors, and the general public.

Malosi Scaffolding demonstrates a commitment to the environment, our clients, and the communities in which we work.

We have systems in place to reduce waste and have increased our uptake of recycled materials to improve our environmental sustainability.

We stress the importance of safety not only for our employees but for all personnel on-site or near our projects. It is because of this that we conduct regular safety inspections and eliminate any hazards identified on-site.

We understand that every project is unique and firmly believe in raising the standards for every client through tailoring a Total Solutions Package to suit the specific needs of each project.

Spartus Bloodstock Pty Ltd, a prominent private racehorse proprietor and premier bloodstock breeder based in New South Wales, is dedicated to setting new standards in the thoroughbred industry. With a passion for pedigree and a commitment to excellence, we stand as a paragon of breeding innovation and bloodstock expertise.

Our prized champion is the illustrious Signore Fox, who has gracefully retired from the racetrack and is now serving as a stallion. Signore Fox's remarkable blend of strength, speed, and versatility is the hallmark of his pedigree, ensuring that these exceptional traits will be passed on to his future progeny. He now stands at stud with Alma Vale Thoroughbreds and Kitchwin Hills.

Renowned horse trainer, Paul Snowden, describes Signore Fox as "a beautiful horse to work with, he is tough and genuine, with a sensational turn of foot". Signore Fox's lineage boasts a champion sire in Exceed And Excel, making him a highly sought-after breeding prospect, as we eagerly anticipate the arrival of his future offspring, destined to make a significant mark on the racing landscape.

With Signore Fox leading the charge, our distinct international bloodstock lineage that includes horses imported from England, Ireland, and France, we are well prepared to engage in a dynamic environment for growth and success in the world of horse racing and bloodstock within Australia.

Join us as we embark on a journey into the world of exceptional horse bloodstock, where every horse carries the legacy of greatness.
